3. Notes on Fields:

i. Each row represents a commodity line. It may contain multiple vehicles, as indicated by multiple VINs in the GOOD\_DESCRIPTION field.

ii. REF\_NBR: An arbitrary number to identify an entry in the data set.

iii. VIN: Due to the design of the software, the width of the VIN field allows only one VIN. If the exporter chooses to enter multiple vehicles in one commodity line, the exporter may choose to enter all VINs in the Goods Description field. In such cases, the VIN field may contain only one of the multiple VINs or may be left blank.

iv. GOODS\_DESCRIPTION: Depending on how much details are provided in the GOODS\_DESCRIPTION field, information on model, make and year of manufacture might be incomplete. There are no separate data fields for those sepcific pieces of information.

HS 8703 (SRP) tab

v. Each row represents an entry in the monthly summary report. It may contain multiple vehicles, as indicated by multiple VINs in the GOOD\_DESCRIPTION field.

vi. There is no VIN field. VIN info is entered in the GOODS\_DESCRIPTION field.

Notes

- vii. GOODS\_DESCRIPTION: Depending on how much details are provided in the GOODS\_DESCRIPTION field, information on VIN, model, make and year of manufacture might be incomplete. There are no separate data fields for those sepcific pieces of information.
- viii. REPORT\_PERIOD: A report is submitted monthly by a SRP reporter to report eligible exports for the stated monthly period. Date of Export info is not available for individual export shipments.
- ix. There is no carrier info in the monthly summary reports.
